OBJECTIVE

B.Tech student in Artificial Intelligence and Data Science with a strong interest in Java development and AI applications. Seeking opportunities to apply my knowledge in real-world projects, improve my skills in software development, and contribute to meaningful solutions.

EDUCATION

Bannari Amman Institute of Technology, Tamil Nadu

2023 – 2027

B.Tech in Artificial Intelligence and Data Science Current

CGPA: 8.32 (upto 3rd semester)

Akshaya Academy Matric HR Sec School

2022 – 2023

12th Board – Percentage Secured: 91.33%

SKILLS

Programming Languages: Java, C, HTML, CSS, JavaScript

Tools Technologies: MySQL, Git, Visual Studio Code

Soft Skills: Problem Solving, Communication, Time Management.

PROJECTS

Mini CLI CRM System

Developed a modular, menu-driven command-line CRM (Customer Relationship Management) application to manage leads, clients, and follow-ups in a sales context. Integrated Java with a MySQL database using JDBC and applied core OOP principles for code modularity and maintainability.

Tech Stack: Java, MySQL, JDBC, Object-Oriented Programming (OOP)

AI-based Document Redactor

Ongoing

Designing an AI-based tool to automatically detect and redact sensitive information (e.g., names, phone numbers, emails) from documents using Named Entity Recognition (NER). Incorporating machine learning techniques for context-aware redaction.

Tech Stack: Python, NLP, spaCy, Regex

CERTIFICATIONS

Create Your First Python Program – UST (Coursera)

Oct 2023

Completed a guided online course through Coursera Project Network to build and run a basic Python application.

Machine Learning Specialization – Coursera (Andrew Ng, DeepLearning.AI) 2025

Completed

a 3-course specialization covering Supervised ML, Advanced Learning Algorithms, and Unsupervised Learning Recommenders
