

Sample Redaction Test Document — Page 1

This document contains a mix of normal (non-sensitive) text and simulated sensitive data. All sensitive-looking items are fictional and created for testing redaction systems only.

Use this file to verify that your redaction website correctly finds and masks PII-like patterns such as names, emails, phone numbers, credit card numbers, social security numbers, passport numbers, bank account numbers, and medical notes.

Customer Record:

Name: John A. Doe
